

BIOL 2325: Human Anatomy Terms List

(Fall 2017)

abdominal
abdominis
abdominopelvic
abducens
abductor
accessory
acetabulum
acinus
acoustic
acromial
acromion
adductor
adhesion
adipocyte
adipose
adventitia
afferent
alba
alveolar
alveoli
alveolus
ampulla
ampullae
anatomical
anconeus
angle
antebrachial
antecubital
anterior
anterolateral
anus
aorta
aortic
apex
apical
apocrine
appendicular
appendix
aqueduct
aqueous
arachnoid
arbor
arch
arcuate
areola
areolar
arrector

arterial
arteries
arteriole
artery
articular
arytenoid
ascending
aspect
aspera
atlas
atrioventricular
atrium
auditory
auricle
auricular
axial
axillary
axis
azygos
back
band
basal
basale
base
basement
basilar
basilic
basophil
biceps
bicuspid
bile
bladder
blood
bodies
body
bone
bones
border
Bowman's
brachial
brachialis
brachii
brachiocephalic
brachioradialis
brainstem
branch
brevis

broad
bronchi
bronchioles
bronchus
buccal
buccinator
bulbourethral
bulbs
C1
C2
calcaneal
calcaneus
callosum
calyces
calyx
canal
canaliculi
capillaries
capitate
capitis
capitulum
capsular
capsule
cardia
cardiac
carneae
carotid
carpal
carpi
cartilage
caruncle
cauda
caudal
cava
cavernosa
cavernosum
cavities
cavity
cecum
celiac
cell
cells
central
centralis
cephalic
cerebellar
cerebelli

BIOL 2325: Human Anatomy Terms List

(Fall 2017)

cerebellum
cerebral
cerebri
cervical
cervicis
cervix
chamber
chiasm
chiasma
chondrocyte
chordae
choroid
chromatophilic
cilia
ciliary
ciliated
circle
circular
circulares
circumflex
clavicle
clavicular
clitoris
coccygeal
coccyx
cochlea
cochlear
coli
colic
collagen
colliculi
colliculus
colon
columnar
columns
commissure
common
compact
concentric
concha
conchae
condylar
condyle
confluence
conjunctiva
connective
conoid

conus
convoluted
coracobrachialis
coracoid
cord
cornea
corneum
corniculate
cornu
coronal
coronary
coronoid
corpora
corpus
corpuscle
cortex
corti
costal
coxa
coxae
coxal
cranial
crest
cribriform
cricoid
crista
cruial
crus
cubital
cuboid
cuboidal
cuneiform
curvature
cystic
deep
deferens
deltoid
dendrites
dendritic
dense
denticulate
depress
dermal
dermis
descending
detrusor
diaphragm

diencephalon
digital
digitorum
disc
discs
distal
dorsal
dorsi
dorsum
duct
ductus
duodenum
dura
eccrine
efferent
ejaculatory
elastic
eminence
end
endocardium
endoneurium
enlargement
eosinophil
epicardium
epicondyle
epidermal
epidermis
epididymis
epidural
epigastric
epiglottis
epineurium
epithalamus
epithelium
equina
erectile
erector
erythrocyte
esophageal
esophagus
ethmoid
ethmoidal
eustachian
extensor
externa
external
extracellular

BIOL 2325: Human Anatomy Terms List

(Fall 2017)

extrinsic	gastroduodenal	humerus
eye	gingivae	humor
eyelid	gland	hyaline
facet	glands	hyoid
facial	glans	hypochondriac
falciform	glenoid	hypodermis
fallopian	glial	hypogastric
false	glomerular	hypoglossal
falx	glomerulus	hypothalamus
fasciae	glossopharyngeal	ileocecal
fascicle	glottidis	ileum
fat	glottis	iliac
female	gluteal	iliacus
femoral	gluteus	iliocostalis
femoris	goblet	iliopsoas
femur	gonadal	iliotibial
fiber	gracilis	ilium
fibroblast	granulosum	incisive
fibrocartilage	gray	incus
fibrous	great	inferior
fibula	greater	infraglenoid
fibularis	groove	infraorbital
filum	ground	infraspinatus
fimbriae	group	infraspinous
fissure	gyri	infundibulum
flexor	gyrus	inguinal
flexure	hair	integument
floating	hallucis	interatrial
folds	hallux	intercalated
follicles	hamate	intercondylar
fontanelle	hand	intercostals
foot	hard	interlobar
foramen	haustra	interlobular
foramina	haustum	intermediate
fornix	head	intermedius
fourth	heart	internal
fovea	hemiazygous	interstitial
frenulum	hemisphere	interthalamic
frontal	Henle	intertrochanteric
frontalis	hepatic	intertubercular
fundus	hepatis	interventricular
funiculus	hepatocytes	intervertebral
gallbladder	hepatopancreatic	intestinal
galli	hillock	intestine
ganglion	hilum	intima
gastric	horizontal	iris
gastrocnemius	horns	irregular

BIOL 2325: Human Anatomy Terms List

(Fall 2017)

ischial	long	medullaris
ischium	longissimus	Meissner's
islet	longitudinal	melanocytes
isthmus	longus	membrane
jejunum	loop	membranous
jugular	lower	meninges
keratinized	lucidum	mental
keratinocytes	lumbar	merocrine
kidney	lumborum	mesencephalic
knobs	lumbosacral	mesencephalon
labia	lumen	mesenteric
labial	lunate	mesentery
lacerum	lungs	metacarpal
lacrimal	lutea	metatarsal
lacteal	lymphocyte	microvilli
lacunae	macula	midbrain
lambdoid	magnum	middle
lamellae	main	midsagittal
lamellated	major	minus
lamina	majora	minor
Langerhans	male	minora
large	malleolus	mitral
laryngeal	malleus	monocyte
laryngopharynx	mammary	mons
larynx	mamillary	mucosa
latae	mandible	multipolar
lateral	mandibular	muscle
lateralis	manubrium	muscularis
latissimus	manus	musculocutaneous
layer	marginal	myelin
left	mass	myocardium
lens	masseter	nasal
lesser	mastoid	nasolacrimal
leukocyte	mater	nasopharynx
levator	matrix	navicular
ligament	matter	neck
ligaments	maxilla	nephron
ligamentum	maxillary	nerve
limb	maximus	nervous
linea	meatus	neural
lingual	media	neurilemma
lip	medial	neurofibril
lipid	medialis	neuroglia
liver	median	neurolemmocyte
lobar	mediastinum	neuron
lobe	medius	neutrophil
lobule	medulla	nipple
